## **pomdevices, LLC Announces Release of Sonamba App for Android Phones**

Durham, NC - October 17, 2012 - Families and caregivers can stay connected by sending photos to a loved one's Sonamba—now from their Android phone. You'll be able to share those special moments you captured on your smartphone's camera within minutes. The Sonamba Android App also enables you, the caregiver to remotely edit/change your loved one's medication & calendar reminders and home/away status on their Sonamba.

“We’re excited about expanding the capability for families and caregivers to stay connected to their seniors—even when far away,” says Ajit Pendse, CEO of pomdevices, LLC. “With the Sonamba Android App, in addition to our current iPhone App, we now cover most smartphones used by caregivers in managing their loved one’s Sonamba remotely.”

Sonamba, by pomdevices is a revolutionary new device that replaces the outdated emergency panic button of TV infamy. Because the technology is designed around seniors’ abilities, they can quickly and easily stay in touch with their extended families. In turn, Sonamba’s continual wellbeing monitoring lets family members know they are okay *everyday*, not just in emergencies.

**About Sonamba:** Sonamba, from pomdevices, LLC, is the ultimate communication device that keeps loved ones so close, it’s like being home again. A Sonamba in your aging loved one’s home is the new way to stay connected everyday - not just in emergencies. It allows you to easily share emails, text messages and photos with family members. It automatically reminds loved ones of their medication routines and alerts you via text or email when its motion/sound sensors detect any change in normal activity. For more information, visit [www.sonamba.com](http://www.sonamba.com).
